

THANK YOU!

Donors and the community made the difference by donating more than \$15 million to help Beaumont caregivers assist patients affected by the pandemic.

Hundreds of community leaders, businesses, organizations, and others like you shared your resources to answer Beaumont's call for assistance with extraordinary generosity.

You supported important research and kept Beaumont's frontline caregivers safe with donations of critical funds, personal protective equipment, cleaning supplies, nourishing meals, and comfort items.

THANK YOU for joining together with thousands of others in southeastern Michigan and across the United States to lend support to the patients in our care.
