Allergies have not been verified during this encounter

For patient safety, it is important to verify allergies at least once per office visit or hospital encounter prior to placing any orders.

To verify allergies, click on the link to Allergies Activity below, review the allergies for accuracy, and click on the "Mark as Reviewed" button.

Additional Information Follow-ups
Allergies Activity None

Across the top row are multiple tabs

Locate the PPG tab and click on it

The PPG tab will display a read-only view of the patient's physician's preferences for the hospital the patient is currently admitted to

Helpful Tips

- if there are no preferences shown for a physician, that physician has not set their own preferences
- Additional training videos and tip sheets are available on providers.Beaumont.org
- For errors or issues with the program, please submit a ticket with the Help Desk
